

Editors' Acknowledgments

Once again, the editors offer very sincere and genuine thanks to all who have helped produce this edition of the Journal. Thanks are due to Ladislav Bizimana our patient Managing Editor, who has supervised the overall production of the Journal, by supporting authors and editors in the process. His cheerful encouragement and attention to detail is unsurpassed. Professor Anca Greere has guided the COVID section, and we are pleased that there are many papers still in the pipeline for November. Finally, I would like to thank the professors, scholars, and colleagues listed below who devoted their time and expertise to assist the reviewing process of this Issue. This remains a challenging time for colleagues who act as reviewers, and we are truly appreciative of the efforts made when there are heavy workloads or challenging circumstances.
